*Reaffirming* its determination to put an end for all time to the suffering and casualties caused by cluster munitions at the time of their use, when they fail to function as intended or when they are abandoned,

*Deploring* the use of cluster munitions in recent and ongoing conflicts and the related significant increase in civilian casualties, and calling upon those who continue to use cluster munitions to cease any such activity immediately,

*Conscious* that cluster munition remnants kill or maim civilians, including women and children, obstruct economic and social development, including through the loss of livelihood, impede post-conflict reconciliation, rehabilitation and reconstruction, delay or prevent the return of refugees and internally displaced persons, can have a negative impact on national and international peacebuilding and humanitarian assistance efforts, and have other severe consequences for many years after use,

*Concerned* about the dangers presented by the large national stockpiles of cluster munitions retained and also transferred for operational use, and determined to ensure their rapid destruction,

*Underscoring* the important achievement of the completion by all States Parties to the Convention of their article 3 obligations,

*Recognizing* the impact of cluster munitions on women, men, girls and boys and the importance of relevant States providing adequate, gender- and age-sensitive assistance to victims of cluster munitions,

*Believing it necessary* to contribute effectively in an efficient, coordinated manner to resolving the challenge of removing cluster munition remnants located throughout the world, and to ensure their destruction,

*Mindful* of the need to adequately coordinate efforts undertaken in various forums, including through the Convention on the Rights of Persons with Disabilities,<sup>1</sup> to address the rights and adequately provide for the needs of victims of various types of weapons, and resolved to avoid discrimination among victims of various types of weapons,

*Reaffirming* that in cases not covered by the Convention on Cluster Munitions<sup>2</sup> or by other international agreements, civilians and combatants remain under the protection and authority of the principles of international law, derived from established custom, from the principles of humanity and from the dictates of public conscience,

*Welcoming* the steps taken nationally, regionally and globally in recent years aimed at prohibiting, restricting or suspending the use, stockpiling, production and transfer of cluster munitions, and welcoming also in this regard that, since 2014, all Central American States have joined the Convention, thus fulfilling their aspiration to become the first cluster munitions-free region in the world,

*Stressing* the role of public conscience in furthering the principles of humanity, as evidenced by the global call for an end to civilian suffering caused by cluster munitions, and recognizing the efforts to that end undertaken by the United Nations, the International Committee of the Red Cross, the Cluster Munition Coalition and numerous other non-governmental organizations around the world,

*Recognizing* the need to uphold humanitarian disarmament norms in the context of the Convention on Cluster Munitions as an enabler of human rights and sustainable development, in line with ongoing global initiatives to strengthen these commitments, and noting the Secretary-General's initiative in this regard,

*Noting* that a total of 124 States have joined the Convention, 112 as States Parties, following the accession of Vanuatu, and 12 as signatories,

*Welcoming* the accession of Vanuatu to the Convention on Cluster Munitions on 5 September 2025, making it the 112th State Party effective 1 March 2026,

*Emphasizing* the need to make further efforts in accelerating the universalization process, and acknowledging the call by States Parties and other stakeholders, as a matter of priority, to all States that have not yet done so, to ratify or otherwise accede to the Convention and, in particular in the current context, to prevent any withdrawal, to promote universal adherence to and strict observance of the Convention's norms, including to discourage, in every possible way, the use, development, production, stockpiling and transfer of cluster munitions,

*Noting* that the thirteenth Meeting of States Parties to the Convention on Cluster Munitions deeply regretted the withdrawal of Lithuania effective 6 March 2025, exercising its national sovereignty pursuant to article 20 of the Convention,

*Recalling* the outcome of the second Review Conference of States Parties to the Convention on Cluster Munitions, held in Geneva from 25 to 27 November 2020 and

*Welcoming* the dialogue undertaken by the President of the thirteenth Meeting of States Parties to the Convention on Cluster Munitions with States not parties to the Convention, in support of universal adherence to the Convention,

*Welcoming also* the initiative of the President of the thirteenth Meeting of States Parties to the Convention on Cluster Munitions to host the South-East Asia and Pacific Regional Workshop on the Convention, held on 18 and 19 March 2025 in Manila,

2. *Stresses* the importance of the full and effective implementation of and compliance with the Convention, including through the implementation of the Lausanne Action Plan, as appropriate;

3. *Expresses grave concern* regarding the number of allegations, reports or documented evidence of the transfer and use of cluster munitions in different parts of the world, and at the related significant increase in civilian casualties and other consequences that impede the achievement of sustainable development;

4. *Urges* all States Parties to provide the Secretary-General with complete and timely information as required under article 7 of the Convention in order to promote transparency and compliance with the Convention;
