¹ [A/80/631](#).

² [A/80/659](#).

³ [A/80/683](#).

Recognizing the importance of the United Nations being able to respond and deploy rapidly to a peacekeeping operation upon the adoption of a relevant resolution of the Security Council, within 30 days for traditional peacekeeping operations and 90 days for complex peacekeeping operations,

Recognizing also the need for adequate support during all phases of peacekeeping operations, including the liquidation and termination phases,

Mindful that the level of the support account should broadly correspond to the mandate, number, size and complexity of peacekeeping missions,

1. *Takes note* of the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2026 to 30 June 2027 and the report of the Independent Audit Advisory Committee on the proposed budget of the Office of Internal Oversight Services under the support account for peacekeeping operations for the period from 1 July 2026 to 30 June 2027;

2. *Reaffirms* its role in carrying out a thorough analysis and approval of human and financial resources and policies with a view to ensuring the full, effective and efficient implementation of all mandated programmes and activities and the implementation of policies in this regard;

3. *Also reaffirms* that the Fifth Committee is the appropriate Main Committee of the General Assembly entrusted with responsibility for administrative and budgetary matters;

4. *Further reaffirms* rule 153 of its rules of procedure;

5. *Reaffirms* that the support account funds shall be used for the sole purpose of financing human resources and non-human resources requirements for backstopping and supporting peacekeeping operations at Headquarters, and that any changes in this limitation require the prior approval of the General Assembly;

6. *Also reaffirms* the need for adequate funding for the backstopping of peacekeeping operations, as well as the need for full justification for that funding in support account budget submissions;

7. *Further reaffirms* the need for effective and efficient administration and financial management of peacekeeping operations, and urges the Secretary-General to continue to identify measures to increase the productivity and efficiency of the support account;

8. *Requests* the Secretary-General to ensure the full implementation of the relevant provisions of its resolutions [59/296](#) of 22 June 2005, [60/266](#) of 30 June 2006, [61/276](#) of 29 June 2007, [64/269](#) of 24 June 2010, [65/289](#) of 30 June 2011, [66/264](#) of 21 June 2012, [69/307](#) of 25 June 2015, [70/286](#) of 17 June 2016 and [76/274](#) of 29 June 2022, and its other relevant resolutions;

9. *Endorses* the conclusions and recommendations contained in the report of the Advisory Committee on Administrative and Budgetary Questions, subject to the provisions of the present resolution, and requests the Secretary-General to ensure their full implementation;

10. *Decides* to maintain, for the financial period from 1 July 2026 to 30 June 2027, the funding mechanism for the support account used in the current period, from 1 July 2025 to 30 June 2026, as approved in paragraph 3 of its resolution [50/221](#) B;

11. *Recalls* paragraph 30 of the report of the Advisory Committee, and requests the Secretary-General to review the cost-sharing arrangement for the Umoja system and to submit proposals, supported by clear, evidence-based justifications and

appropriate calculations, in the next progress report on the Umoja system, for consideration and approval by the General Assembly;

12. *Notes* the application of the scalability model, which provides an evidence-based methodology to indicate the level of resources for the support account and does not replace the consideration and approval of the budget of the support account by the General Assembly and legislative review processes, and requests the Secretary-General to keep it under continuous review and to report to the Assembly on its review at the eighty-second session;

13. *Also notes* the role of the support account, and requests the Secretary-General to ensure timely, effective and efficient backstopping to peacekeeping operations, particularly in the context of new and evolving mandates, and to maintain core capacity and institutional knowledge;

14. *Further notes* the efficiency and restructuring measures, and requests the Secretary-General to ensure that these measures do not adversely affect the operational capacity of peacekeeping support structures, the quality of services provided to field missions and the safety and security of personnel, and to provide in the next report information on the impact of those measures on all of these aspects;

15. *Notes* that the proposed support account requirements for 2026/27 include backstopping requirements arising from the establishment of a new mission, and stresses the importance to continue to ensure that such requirements are appropriately reflected in staffing and resource decisions;

16. *Also notes* the increasing complexity of environments in which peacekeeping missions operate;

17. *Requests* the Secretary-General to consider options for parameters for a staffing model for the determination of the civilian personnel component of peacekeeping missions, and emphasizes that the said options and parameters should not be retroactively applied nor impact the current staffing levels of the missions, which should be considered as the baseline of resource requirements of each mission for any analysis and shall give proper consideration of the need to preserve and ensure continuation of the effective delivery of the mandates entrusted to the missions, while paying due regard to the resolutions of the Security Council, current missions' workload drivers, scope of missions' ongoing activities and missions' operational environment, while taking into account the needs of the small peacekeeping missions and the unique nature of each mission, and to present these options to the General Assembly in a separate report at its eighty-second session;

18. *Recalls* paragraphs 73, 74, 75 and 76 of the report of the Advisory Committee, notes the integrated performance and budget report presented this year, and requests the Secretary-General to present, in future reports, essential elements of the results-based budgeting methodology, in all official languages, to ensure adequate transparency and accountability in the use of resources and ensure that the streamlining of documentation maintains the due level of clarity and high quality of information provided;

19. *Notes* the Secretary-General's proposal for the establishment of the backstopping requirements for the United Nations Support Office in Haiti, further notes that "other staff resources" is not the appropriate budgetary modality for backstopping requirements under the support account, and requests the Secretary-General, where operational needs justify the creation of new posts and positions for backstopping, to ensure that posts and positions are properly established and justified, taking into consideration the permanent or transitory nature of such activities;

20. *Decides* to abolish one long-vacant P-3 post in the Office of Supply Chain Management in New York;
